

C PRS**The Parish of Sculcoates, records****1775-1929**

Historical Background: Parishes had various local government functions but only two of these were transferred directly to the Corporation. The longstanding duties of parishes in relation to highways were confirmed by the Highways Act of 1825 (5 & 6 Geo IV c.50) which permitted populous parishes to exercise their powers through a highways board. These powers were transferred to boards of health when they were established. The overseers of the poor lost their powers to relieve the poor under the Poor Law Amendment Act of 1834 (4 & 5 Will. IV c.76) but they retained their rating powers and became the main rating authorities for their areas levying rates for the corporation and the board of health as well as the guardians. During the nineteenth century the overseers came effectively under the control of the corporation but it was not until 1929 that the rating function was formally transferred by the Local Government Act (19 & 20 Geo. V c.17). The parish of Sculcoates covered the area north of Hull and south of Cottingham. The first mention of a church in the area was in 1232. It was to remain a separate and distinct parish until 1837 when it was absorbed into the newly extended borough of Hull. The Sculcoates Poor Law Union was established in 1837 and in 1930 also became part of Hull. St Paul's Parish was created as chancery of Sculcoates in 1844.
