

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

**C TAY**                      **City Architects Records relating to the**                      **1939-1960**  
**repair of war damaged property and other**  
**wartime functions**

**Historical Background:** During the Second World War the Local Authority was made responsible for housing the people within its boundaries and to enable it to fulfil this duty it was given powers to repair and make habitable houses which had been damaged by enemy action. The City Architect was responsible for assessing and supervising the execution of the repairs required. These records reflect those duties and give us a comprehensive insight into how repairs were carried out during the conflict.

**Description:** These records cover the functions carried out by the City Architect during The Second World War. As well as records relating to the damage and repair of houses, they also include returns of labour engaged in the repair of war damaged housing and the costs incurred for both repairs and labour. Contracts with Tarran Industries are detailed and paperwork on requisitioned property and temporary housing included.

**Arrangement:**

C TAY/AR	Record of damage and first aid repairs to individual properties	1939-1945
C TAY/C	City Architect Department lists of houses damaged by enemy action	1939-1945
C TAY/CP	Record of damage and first aid repairs to individual properties owned by the Corporation	1939-1945
C TAY/EW	Records of applications for repair to war damaged property made to the City Architect for consideration by the Emergency Works Committee/ Priority Sub-Committee	1941
C TAY/I	Indexes of War Damaged Property	1939-1945
C TAY/L	City Architect's Returns of Labour engaged in the Repair of War Damaged Housing	1941-1945
C TAY/M	City Architect's Files on a number of Housing issues	1939-1945
C TAY/PR	Property Returns made after each raid and sent to the District Valuer and the Minister of Health	Jun 1940-May 1942
C TAY/RP	Record of requisitioned and subsequently de-requisitioned properties	1943-1960
C TAY/S	Records of repairs to war damaged properties with costs	1941-1945
C TAY/T	City Architect files relating to the repair of war damaged houses by Tarran Industries Ltd, Hull	1943-1946
C TAY/TH	City Architect's Files relating to Temporary Housing	1944-1945

**Extent:** 213 boxes

**Related material:**

Almost all records dating from the years 1939-1945 contain information relating to the war and its impact on the body creating the records.

The following are records which were created as a result of the war:

The Council and its Committees whose duties related specifically to the war: Air Raid Precautions 1936-1939; Emergency, 1939-1945; Air Raid Precautions 1945-1946; Reconstruction 1942-1946; Victory Celebrations 1944-1946. The paperwork behind the Victory Celebrations can be found at C TCVC. [TCM/TCR]

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

The City Engineer's Department collection contains correspondence files, photographs, maps, plans and diagrams relating to the Second World War.

Two classes of correspondence files relate to Air Raid Precautions, later re-named civil defence [CD] and War Damage [WD]:

Civil Defence correspondence 1935-1947 [C TSCD]

War damage correspondence 1935-1949 [C TSWD]

Photographs & negatives 1936-1945 [C TSP]

These include preparations for war, the war related activities of the department and the damage caused by the war. In addition they contain photographs relating to shelters, report centres, A.R.P. training and temporary houses.

Maps [C TSY]

C TSY/2/2: A set of 12 maps of the Hull area (scale 5.5 inch=1 Mile) indicating the type and position of each bomb falling on Hull in specific raids during the Second World War.

C TSY/2/3: A set of 1928 edition Ordnance Survey maps of the Hull area (scale 1:2500) indicating war damaged properties.

Evacuation accounts [C TED/1/6/1-58] 1940-1945

Accounts of financial adjustments between Hull and education authorities into whose areas Hull children were evacuated. There are separate files for each authority over the years 1940-1945. Some include lists of children with their Hull addresses and the names of their schools in Hull and the evacuation area.

Control and report [C TYA]

Control incident files containing the papers relating to individual raids including messages received during raids and subsequent reports filed in chronological order of raids. Also includes correspondence and papers relating to training courses, retention and dispersal of staff, lists of unexploded bombs and mines, schedules of bombs dropped in incidents giving the time and place of landing and the type of each bomb.

Casualty registration [C TYC] 1940-1945

These contain casualty lists for each incident giving the name, age and address (or unit in the case of service personnel) of casualties under the headings of:

Mortuary (dead)

Hospital (seriously injured)

First Aid Post (slightly injured)

Awards for gallantry [C TYG]

Many of those who volunteered their services or carried out acts of bravery were recognised by the City and the paperwork relating to the Gallantry Awards and the Defence Medal have survived within this series. It contains case papers relating to both commendation by the local authorities and recommendations for recognition by the King including correspondence and statements by witnesses.

Registration of personnel [C TYR]

The Warden Service registration records include 90,000 cards created for the registration of personnel for Civil Defence Service. Each individual card details the names, addresses, ages, dates of birth, occupation, business address, name of employer and name and relationship of next of kin. They also detail what service, division and district they belonged to, their training process, and equipment issued to them. These personnel cards give us a

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

snapshot of the individuals living and working within the city and the role they played on the Home Front.

Warden Service Records [C TYW]

Covering all aspects of war time life, these files cover subjects such as administration, equipment, civilian respirators, finance, maintenance and repairs, bombs, anti-gas precautions, shelters and buildings, training, air raid welfare, general welfare, and homelessness.

**Access Conditions:** Access will be granted to any accredited reader

<b>C TAY/AR</b>	<b>Record of damage and first aid repairs to individual properties</b>	<b>1939-1945</b>
	<p>These records were kept on printed forms. They are typical in the extent to which they are completed. Every time a property was damaged a printed form was made out giving details of the property, the damage sustained and first aid repair work carried out. These records are filed in alphabetical order of streets and numerical order of properties within them with forms relating to terraces filed alphabetically after the houses fronting the street itself. These files are boxed in numbered boxes. Those streets within each box are listed in the description field at item level. Terraces are not listed. Please search under the main street.</p> <p><b>185 boxes</b></p>

<b>C TAY/C</b>	<b>City Architect Department lists of houses damaged by enemy action</b> These lists mostly relate to property classified as C(b)-seriously damaged and needing human evacuation. <b>2 boxes</b>	<b>c.1939-1945</b>
<b>C TAY/C/1</b>	<b>City Architect Department lists of houses damaged by enemy action</b> Classification Registers These are ruled volumes with column headings for the following: 1. Name of street 2. Number of house 3. Classification A 4. Classification B 5. Classification C(b) 6. Reclassification date further action for (C) dates of Authorisation/rejection of repairs by: 7. Valuation Office 8. Council 9. Ministry of Health 10. Cost of work 11. Date of Completion 12. Remarks Entries were made in chronological order of	<b>c. 1939-1945</b>

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

classification. This is largely in raid order apart from some exceptions. If a property already in the register was reclassified its entry was amended and the date of the amendment was inserted in column 6. If a subsequent raid altered its classification a new entry was made and a cross-reference entered in column 12 of the first entry. Entries in column 12 generally indicate who dealt with the repair-City Engineers, owner, Corporation etc  
**2 volumes**

columns such as 'repaired', 'demolished', received 'limited repairs' etc.  
1 item

- C TAY/C/2/10 City Architect Department lists of houses damaged by enemy action c. 1939-1945  
Printed list compiled alphabetically by street with 3 column headings relating to houses classified as C (b)-seriously damaged and needing human evacuation and falling in to an area affected by a Town Planning Scheme. In this list the column headings have been adhered to. There are hand written notes in the columns such as 'repaired', 'completed,' 'demolished', received 'limited repairs' etc. (see also C TAY/C/20)  
1 file
- C TAY/C/2/11 City Architect Department lists of houses damaged by enemy action 24 Apr 1945  
Printed list compiled alphabetically by street with multiple column headings. It runs to 120 pages and is part of a government survey of unrepaired houses - those classified as C (b)-seriously damaged and needing human evacuation.  
The list is accompanied by a letter from the War Damage Commission Regional Manager, Leeds, to the City Architect. The letter explains abbreviations used in the list. The list, it would appear, was originally compiled by the City Architects Department.  
1 file
- C TAY/C/2/12 City Architect Department lists of houses damaged by enemy action 5 Feb 1946  
Handwritten list of repairs to those houses classified as C (b)-seriously damaged and needing human evacuation. The repairs were carried out by F. Bilton Ltd and cover Area 5-East Hull (contract 1) order no. 0/95404 and give commencement and completion dates for the work undertaken.  
1 file
- C TAY/C/2/13 City Architect Department lists of houses damaged by enemy action c. 1946  
Handwritten list of repairs to those houses classified as C (b)-seriously damaged and needing human evacuation. The repairs were carried out by Holmes and Hayter and cover Area 2-West Hull and give completion dates for the work undertaken.

C TAY/C/2/24/6	<p>City Architect Department lists of houses damaged by enemy action            Certificates of Essentiality            Address: 25, 27 &amp; 29 Alexandra Road            From: W. Batty &amp; Co, Builders, Albert Avenue, Hull            Date:19 May 1945            Number of Certificates: 1            1 item</p>	19 May 1945
C TAY/C/2/24/7	<p>City Architect Department lists of houses damaged by enemy action            Certificates of Essentiality            Address: 379 James Reckitt Avenue, Hull            From: T.W. Riley, House and Estate Agent            Date:3 Apr 1945            Number of Certificates: 2            2 items</p>	3 Apr 1945
C TAY/C/2/25	<p>City Architect Department lists of houses damaged by enemy action            Form C.W.3. that was forwarded by the City Architect's Department of Hull City Council on the last day of each month to the Ministry of Health. It does not list individual houses but is a return of figures (including estimate of cost involved) relating to works of repair, conversions of premises into dwellings and adaptation of houses into tenements and the completion of unfurnished houses. It appears that these returns relate specifically to houses classified as C (b)- -seriously damaged and needing human evacuation. The lists are complete for the dates covered.            1 item</p>	30 Nov 1943- 31 Jul 1945
C TAY/C/2/26	<p>City Architect Department lists of houses damaged by enemy action            4 miscellaneous handwritten lists relating to C (b) houses--seriously damaged and needing human evacuation.            4 items</p>	c. 1939-1945
C TAY/C/2/26/1	<p>City Architect Department lists of houses damaged by enemy action            This handwritten list records letters sent to owners and whether they have replied and is compiled by address.            1 item</p>	c. 1939-1945

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

C TAY/C/2/26/2	<p>City Architect Department lists of houses damaged by enemy action This handwritten list records the number of C (b) houses repaired by the Local Authority, Owners, those houses classified as 'total loss' or affected by Town Planning Scheme (not a list of specific houses, just a running total). 1 item</p>	c. 1939-1945
C TAY/C/2/26/3	<p>City Architect Department lists of houses damaged by enemy action This handwritten list covers only certain streets and terraces including Crowle Street, Lee Smith Street, Woodhouse Street, Wyke Street and the classification of damage attached to certain addresses. 1 item</p>	c. 1939-1945
C TAY/C/2/26/4	<p>City Architect Department lists of houses damaged by enemy action This handwritten list gives addresses classified as C (b) that have been repaired by the Corporation. 1 item</p>	c. 1939-1945
C TAY/C/2/27	<p>City Architect Department lists of houses damaged by enemy action Forms showing additions and alterations of Classifications for month endings. Also included in this file are 30 Jun 1946 &amp; 30 Sep 1946. These relate to the houses listed in C TAY/I/1 and appear to give the total of damaged housing stock in the City as well as the number of houses that were reclassified that month. The figures differ depending on the number of additional property's deemed 'damaged' in some way. 1 item</p>	31 Mar 1944- 31 Dec 1945
C TAY/C/2/28	<p>City Architect Department lists of houses damaged by enemy action Lists with column headings of additions, alterations and deductions of classifications of damage arranged by date and entered daily. They record in columns the number of houses classified under the various headings and whether they are additions or deductions from the original tally as listed in C TAY/I/1. The figures were doubtless used in order to compile the monthly forms listed under C TAY/C/2/27. 1 item</p>	31 Mar 1944- 31 Jun 1946

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

<b>C TAY/EW</b>	<b>Records of applications for repair to war damaged property made to the City Architect for consideration by the Emergency Works Committee/ Priority Sub-Committee</b> The Priority Sub Committee of the Emergency Works Committee was a temporary committee set up solely to consider applications made by individuals, companies, educational establishments, hospitals and the Corporation itself for repairs to war damaged property. It was the Committee's duty to decide whether there were enough materials and labour available to warrant the repairs applied for. See C TCY/1/8/2 for the minutes of this committee from 13 Jun 1941-6 Nov 1941. The applications have not been individually listed, however there is an index and this should be requested by readers in the first instance in order to identify the application number they wish to view. As the applications were made to the City Architect they have been listed amongst the rest of the City Architect's records here. Some applications just consist of a form, others have more information such as plans of proposed repair work. <b>13 items</b>	<b>1941</b>
<b>C TAY/EW/1</b>	<b>Indexes of applications for repair to war damaged property made to the City Architect for consideration by the Emergency Works Committee/ Priority Sub-Committee</b> Indexes of applications <b>2 items</b>	<b>1941</b>

**C TAY/I**

**Indexes of War Damaged Property**

**c.1939-1945**

It was the responsibility of Local Authorities to ensure the provision of adequate housing for the population within their areas. If war damage created a shortage they were empowered to carry out the necessary repairs to make houses habitable again. Such repairs took the form of 'first aid repairs' to make the houses immediately inhabitable and 'permanent repairs' to restore them to their former condition. It was part of the City Architect Department's duty, both during and after the war, to assess the damage to every property and then classify it using the abbreviations below:

'a'=totally destroyed

'b'=demolition necessary

'c (a) '=seriously damaged but still useable

'c (b) '=seriously damaged, need for human evacuation

'd '=slightly damaged

These classifications were occasionally altered if further damage was sustained to a property or if the damage was reassessed.

**4 boxes**

**C TAY/I/1**

**Indexes of War Damaged Property**

**c. 1939-1945**

These lists have been compiled alphabetically by the first letter of the Street. Please note that terraces are listed under the main street.

These lists all of the numbers of the houses in the street, regardless of whether or not they sustained any damage. The classifications were occasionally altered if further damage was sustained to a property or if the damage was reassessed.

These lists are compiled by the first letter of the street and sorted into bundles/files for each letter There are only 25 files as there is no file for streets beginning with X

Colour codes and symbols were used in order to indicate the classification of damage:

'a '=totally destroyed-this was denoted by a red back slash

'b '=demolition necessary-this was denoted by a blue back slash

'c (a) '=seriously damaged but still useable-this was denoted by a blue circle

'c (b) '=seriously damaged, need for human evacuation-this was denoted by a red circle

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

'd'=slightly damaged-this was denoted by being left blank

C TAY/I/1/25	Indexes of War Damaged Property Streets beginning with 'Z' 1 file	c. 1939-1945

<b>C TAY/I/2</b>	<b>Indexes of War Damaged Property</b> These lists have been compiled and at a later date they have been grouped together according to the first letter of the Street. They are, however, not in strict alphabetical order and therefore most files are indexed by page number (not P or A). Terraces are listed under the main street. These lists only list the numbers of the houses in the street that sustained some sort of damage. The classifications were occasionally altered if further damage was sustained to a property or if the damage was reassessed. Where this occurs the previous classification is crossed out and a new one written in. These lists are compiled by the first letter of the street and sorted into bundles/files for each letter (with pages numbered). There are only 24 files as there is no file for street beginning with X or Z. The date of the raid that caused the damage is also printed on the pages for each street. These can be cross referenced with the raid files at C TYA/1-86 <b>24 files</b>	<b>c. 1939-1945</b>

<b>C TAY/L</b>	<b>City Architect's Returns of Labour engaged in the Repair of War Damaged Housing 5 bundles, 60 items</b>	<b>1941-1945</b>
<b>C TAY/L/1</b>	<b>City Architect's Returns of Labour engaged in the Repair of War Damaged Housing</b> These returns relate to week endings. They show the name of each contractor (alphabetically by company name) and, in most cases, the order number under which they are working. They also give the total number of men employed by each contractor, their names, home town, age (not in all cases) and trade. Foremen and apprentices are identified in all of the returns as well as the ages of youths and apprentices. The trade of each employee is given in the form of a code: B=Bricklayer BP=Bricklayer-Plasterer J=Joiner	<b>1942-1945</b>

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

P=Plasterer  
 S=Slater  
 PL=Plumber  
 BL=Bricklayer-Labourer  
 JL=Joiner-Labourer  
 SL=Slating-Labourer  
 L=Ordinary Labourer  
 E=Electrician  
 PA=Painter

Occasionally more than one return has been retained particularly if one copy has been annotated in any way.

At the end of each schedule is a summary list of all of the contractors giving the total number of men employed by each.

- C TAY/L/3/2                      Loose papers relating to the City Architect's Returns of Labour engaged in the Repair of War Damaged Housing  
23 Jan 1942  
Annotated letter from the Town Clerk, Hull regarding Garrisons of Building and Engineering Labour, enclosing a copy of a letter dated 20 Jan 1942 from the Ministry of Health Regional Office, Leeds. It discusses the pool of labour necessary for ordinary maintenance and repair work and repair work resulting from air attack.  
1 item
- C TAY/L/3/3                      Loose papers relating to the City Architect's Returns of Labour engaged in the Repair of War Damaged Housing  
Feb 1943  
List of workmen employed in the repair of war damaged housing that resided outside the Hull City Boundary. The list shows the name of each contractor (alphabetically by company name) and, in most cases, the order number under which they are working. It also gives the total number of men employed by each contractor, their names, home town, age (not in all cases) and trade. Foremen and apprentices are identified in all of the returns as well as the ages of youths and apprentices.  
The trade of each employee is given in the form of a code:  
B=Bricklayer  
BP=Bricklayer-Plasterer  
J=Joiner  
P=Plasterer  
S=Slater  
PL=Plumber  
BL=Bricklayer-Labourer

C TAY/M/1/7	City Architect's Files on a number of Housing issues Outline specification of works required to be done and materials to be used in the repair of C(b) houses, under the direction and to the satisfaction of the Supervising Officer -issued by the City Architect 1 item	April 1943
C TAY/M/1/8	City Architect's Files on a number of Housing issues Ministry of Works form of prime cost contract for work on bomb damaged houses issued for the use of Local Authorities in Great Britain-issued by the City Architect's Department, Hull 1 item	10 Apr 1943
C TAY/M/2	City Architect's Files on a number of Housing issues File relating to Air Raid shelters on Corporation Housing Estates On 21 Jul 1948 a policy was adopted by the City Architect and the Chairman and Deputy Chairman of the Housing Committee with regard to the retention of Air Raid shelters on Corporation Housing Estates. The summary of this policy is included in this file. This file also includes a 45 page list of applications for the retention of non-reinforced type brick domestic surface shelters. This list simply lists Housing Estate addresses, not the names of tenants. This file also includes a plan showing an ARP concrete shelter (built for 6 persons, with 15" thick main walls 4" thick diding walls and a height of 6ft 11" overall as well as the distance from the dwelling ), by William Morris, City Engineer 1 file	14 Nov 1947- 20 Aug 1948
C TAY/M/3	City Architect's Files on a number of Housing issues In August 1941 the City Architect, Andrew Rankine, at the request of the Regional Commissioner, Sir William Bartholmew, submitted a report to the Emergency Committee regarding the possibilities of defining special areas within the boundary of the City of Hull. It was a report requested by the Commissioner for general knowledge only and was not to be regarded as official or likely to be approved. It was only requested for information at this stage.The file includes two printed street plans with possible 'special areas' circled 1 file	15 Aug 1941

<b>C TAY/PR</b>	<b>Property Returns made after each raid and sent to the District Valuer and the Minister of Health</b>	<b>20 Jun 1940- 19 May 1942</b>
	<p>These are the copies of the returns made to the District Valuer and the Minister of Health after each raid. They are split into parts I, II and III and give the numbers of houses, factories, offices, public buildings and other premises which fell into each of the following categories:</p> <ul style="list-style-type: none"> <li>(a) Totally damaged</li> <li>(b) So badly damaged that demolition is necessary</li> <li>(c) Seriously damaged but capable of repair</li> <li>(d) Slightly damaged (excluding broken windows)</li> </ul> <p>The schedules of returns give a description of the property, the address of the property, occasionally the occupier and owner's names and the property's gross and rateable values and occasionally an indication of the damage made to the contents of the property concerned.</p> <p>For raid numbers that affected particular streets, please consult the street index cards in the search room. These records cover raids 1-66. These records are referred to in the card index to streets in the search room under the previous reference C TYP/1-5 but can be found without too much difficulty using calm.</p>

<b>C TAY/RP</b>	<b>Record of requisitioned and subsequently de-requisitioned properties</b> Once these properties were requisitioned by the Kingston upon Hull Corporation, the responsibility for repair lay, in most cases, with the City Architect. Most of the properties were then de-requisitioned after the war. The majority of files include a schedule of condition at the time of the requisition and a schedule of repairs required as well as instructions for issuing orders. There are sometimes references to order numbers and or contractors. Only some files indicate names of tenants or subsequent tenants. In the majority of cases there are separate files relating to each individual property and they have been listed alphabetically by street. Terraces are listed under the nearest main street. The date of the de-requisition is noted in the date field (if known) and the date of the original requisition is noted in the description field (if known). Only 2 boxes with	<b>1943-1960</b>

Hull History Centre: City Architects Records relating to the repair of war damaged property and other wartime functions

streets from A-H have been identified, however the register at C TAY/RP/1 does list properties and their de-requisition dates beyond H.

**C TAY/S**                      **Records of repairs to war damaged properties with costs**                      **1941-1945**

Groups of lists sent mostly weekly with a cover sheet to the City Architect showing the first aid repairs made to war damaged properties giving the total cost of repairs for each contract as well as the lists of properties repaired with relevant house numbers and the type of work undertaken. Each of these lists are given a serial number, contractor name and order number. These records are organised by serial number chronologically. The dates are taken from the cover sheet but the repairs may have been carried out some time before this. Some of this information can be cross referenced to the records at C TAY/AR (War damaged property sheets) where the serial number is known as the R.H.C. number (Repair Housing Contract).

<b>C TAY/TH</b>	<b>City Architect's Files relating to Temporary Housing</b> These files relate to temporary housing measures that were put in place during the war by the City Architects to fill a void, given the severe damage to the City's housing stock caused by enemy action. Temporary housing includes factory-made houses. These were seen as an affordable and quick way for Local Authorities to replenish housing stock. Sites suitable for temporary houses were identified and are listed in these files. Copy's of Ministry of health circulars regarding temporary accomodation are included as well as correspondence between the City Architects Department and various other council departments and contractors. <b>1 box</b>	<b>1944-1945</b>
