**The Hull Corporation
Borough Extension Committee**

1876-1884

Historical Background: Hull Corporation Borough Extension Committee was established in 1876 to consider and report to the council as to whether the corporation should seek to extend the municipal boundary. This would bring into the Borough the areas of Newington, St. John's Wood and other outlying districts. It would seek to identify the boundary and make recommendations for the arrangements of wards as well as deal with any other matters which such a boundary extension may involve. The committee terminated in 1884 once the extension had been completed.

Description: Apart from records within the main committee series and any associated reports, there does not appear to be any additional records for the Hull Corporation Borough Extension Committee

Related material: See council minutes in the searchroom. In addition, there are records from the Newington Board of Health (C BHN) and the Newland area of the Cottingham Board (C BHC), as well as building plans under C TAB/37, acquired as a result of this borough extension.
