Leases of Corporation Property

1389-1835

Historical Background/Biographical Background: Created by the Borough of Kingston upon Hull during the course of business regarding property and land transactions

Custodial history: Originally in the possession of the Town Clerk, transferred to Hull City Archives

Description: Most of the old Corporation leases are listed in Stanewell's Calendar, those from before 1603 being in the deeds section and those from 1603 to 1800 being numbered M.480-M.864. Since Stanewell's was published several more pre 1780 and many post 1780 leases have come to light. These documents have all been brought into a single system with a new enumeration, the search room copies of Stanewell acting as a correlation.
