

C DBGC British Gas Light Company, Hull Station, records 1873-1947

Accession number: 327/97

Historical Background: The British Gas Light Company (BGLC) was founded in 1824. It would go on to operate 7 stations nationally, one of the first of which was in Hull. The Company established works in 1826 on Bank Side and supplied the Sculcoates and Myton areas with gas lighting. The BGLC, who used coal for its gas, were in competition with the Kingston upon Hull Gas Light Company (KHGL), who used whale oil. In 1858 BGLC had its powers extended, and by 1898, it had a supply agreement with the Corporation of Hull after the Corporation had taken over the KHGL and demolished its works. 1934 saw the Corporation sell its own gas undertaking to BGLC. Nationalised in 1949, the BGLC was initially placed under the Eastern Gas Board, although the Hull station would later be transferred to the North Eastern Board in 1951.

Custodial history: C DBGC/2-12 were deposited with the Hull City Archives in 1997 by Mr Rodenby, on behalf of Mrs. V. Mason, whose late husband had acquired them. C DGBC/1 was transferred from Local Studies having been previously catalogued within the records of the Sutton, Stoneferry and Drypool Gas Company (L DBSS).

Description: Wages account book, (1873-1874); reports, letters and correspondence, (1922-1947) and plans, (1925-1935).
