

**C DUTN**                                    **Records relating to the Hull Branch  
of the National Union of Teachers**                                    **1937-  
c.1990**

**Accession number:** 17/33

**Historical Background:** The National Union of Elementary Teachers (NUET) was established at a meeting at King's College London on 25 June 1870 to represent all school teachers in England and Wales. However, members came to consider that 'elementary teachers' was a demeaning term and after toying with the idea of changing the name to the National Union of English Teachers the name National Union of Teachers (NUT) was finally adopted at Annual Conference in April 1889. The Union remains the largest body representing school teachers in England and Wales.

**Custodial history:** The records were collected by Mr. Warwick Wiggan during his time as an officer of the Hull branch of the National Union of Teachers, and deposited with the Hull History Centre in June 2017

**Description:** Includes yearbooks covering 1954-1974, booklets regarding information and procedures, as well as programmes of events
